This is a draft of a proposal to create a more advanced more credible credential certification in software testing The core idea is a certification based on a multidimensional collection of evidence of education experience skill and good character

Metalloid Wikipedia

A metalloid is a type of chemical element which has properties in between or that are a mixture of those of metals and nonmetals There is neither a standard definition of a metalloid nor complete agreement on the elements appropriately classified as such Despite the lack of specificity the term remains in use in the literature of chemistry The six commonly recognised metalloids are boron
