Economics Wikipedia

Economics is the social science that studies the production distribution and consumption of goods and services. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy including individual agents and markets, their interactions, and the outcomes of interactions.

Money Wikipedia

Money is any item or verifiable record that is generally accepted as payment for goods and services and repayment of debts such as taxes in a particular country or socio-economic context. The main functions of money are distinguished as a medium of exchange, a unit of account, a store of value, and sometimes a standard of deferred payment. Any item or verifiable record that fulfills these
