Automation Wikipedia

Automation is the technology by which a process or procedure is performed with minimum human assistance. Automation or automatic control is the use of various control systems for operating equipment such as machinery processes in factories, boilers, and heat treating ovens; switching on telephone networks; steering and stabilization of ships, aircraft, and other applications; and vehicles with

Brazing Wikipedia

Brazing is a metal joining process in which two or more metal items are joined together by melting and flowing a filler metal into the joint, the filler metal having a lower melting point than the adjoining metal. Brazing differs from welding in that it does not involve melting the work pieces, and from soldering in using higher temperatures for a similar process while also requiring much
