Image resolution Wikipedia

Image resolution is the detail an image holds. The term applies to raster digital images, film images, and other types of images. Higher resolution means more image detail. Image resolution can be measured in various ways. Resolution quantifies how close lines can be to each other and still be visibly resolved. Resolution units can be tied to physical sizes, e.g., lines per mm, lines per inch.

High definition television Wikipedia

High definition television (HDTV) is a television system providing an image resolution that is of substantially higher resolution than that of standard definition television. This can be either analog or digital. HDTV is the current standard video format used in most broadcasts: terrestrial broadcast television, cable television, satellite television, Blu-rays, and streaming video.
