## General relativity Wikipedia

General relativity GR also known as the general theory of relativity or GTR is the geometric theory of gravitation published by Albert Einstein in 1915 and the current description of gravitation in modern physics General relativity generalizes special relativity and Newton's law of universal gravitation providing a unified description of gravity as a geometric property of space and time

## Tests of general relativity Wikipedia

Tests of general relativity serve to establish observational evidence for the theory of general relativity The first three tests proposed by Einstein in 1915 concerned the anomalous precession of the perihelion of Mercury the bending of light in gravitational fields and the gravitational redshift The precession of Mercury was already known experiments showing light bending in line with
